The first dengue death in our province was a 10-year-old learner from the District of Numancia and as per report from the APESRU majority of cases came from the school – aged children.

In this connection, may we request an updated school/district consolidated report indicating the names of all cases in your respective school/district using the attached format to be submitted on or before August 8, 2019, at the SGOD-Division Health and Nutrition Section.

Very truly yours,
