FROM THE EDITORS

Saeamat!

It is with immense gratitude and delight that we offer this priceless collection of significant cultural legacies in support of our ongoing thrust for the promotion, preservation, and protection of local culture and arts.

SDO Aklan Project PAARAG, a brainchild of Dr. Ruby Agnes B. Estrada, is an example of a community-based collaboration that uses cultural mapping to support and foster an empowering culture by enabling the local schools to identify their rich cultural resources.

"Serve as tools for raising awareness among local government units, community stakeholders, advocates, educators, and youths about the importance of safeguarding living heritages, of inventory making through the identification and documentation of cultural practices, while underlining the crucial role of cultural heritage for sustainable development," to quote Virgilio S. Almario, National Artist for Literature.

Almario added: "It is vital to put our commitment to protect our cultural heritage as they continue to remind us of our past and mold us to be the Filipinos we are today. With sustainability in mind, this valued tool aims to transfer the knowledge of cultural mapping for the benefit of our community and our future generations."

And that taking abreast of technology to have access to the full contents of valued heritages through Wiki profile by scanning the QR code displayed on the page.

Mabuhay Project PAARAG, padayon sa pag-eayag!
