Regional Director
DepEd Region VI

Dear Dir. Uytico,

Greetings of good health!

The Soil Transmitted Helminthiasis Prevention and Control Program (STH-PCP) of the Department of Health Western Visayas Center for Health Development (DOH WV CHD), in cooperation with the provincial and city health offices will be conducting the harmonized schedule on combined mass drug administration (HSCMDA) on January and July 2024 for community-based, and March and September 2024 for school-based. This activity is being implemented to reduce the prevalence of soil transmitted helminthiasis in vulnerable populations, especially school-aged children.

As part of the agreements in the consultative meeting last November 23-24, 2023, we would like to request your permission to allow the health workers from the city/rural health centers to conduct mass drug administration in schools within their respective areas. In addition, the assistance of the school nurses and clinic teachers in this semi-annual activity will be highly appreciated.

Kindly see attached documents for your information and guidance.

For any concerns, you may contact **Ms. Airene Legarda** at 09162544875 or thru this email address: dohwvchdinfectious@gmail.com.

Thank you for your continued support to our endeavors.

Very truly yours,

ADRIANO P. SUBA-AN, MD, MPH, MCHM, CESO IV
Director IV
